## Volunteer Kentucky Online Portal

The Kentucky Cabinet for Health and Family Services (CHFS) announced in August 2020 that Serve Kentucky is offering free access for volunteer-based organizations to [Volunteer Kentucky](#), the state's new online volunteer portal designed to connect volunteers to community needs. The Volunteer Kentucky portal helps volunteer programs recruit new and manage current volunteers, manage events, track involvement and produce reports – a necessity for grants and funding. This site is available to nonprofits, government agencies, schools, faith-based organizations, and others.

Volunteer Kentucky is available, not only for agencies to share their needs but also for residents to find volunteer opportunities. Read the full [press release](#) and check out the [video announcement](#) by Governor Beshear.
